REMARKS

25X1X

1. Between late-September and late-October 1951, reports were received on the following unoccupied airfields in the Soviet Zone of Germany:

Airfield	Date of Observation	Observation and Evaluation
Altengrabow-Cross-Luebars	2 October	Field located four km southeast of Cross-Luebars and about 2 km southwest of Thuemer Mountain. About 10 a.m., six single-engine low-wing monoplanes with in-line engines landed. Radio installation with four masts 200 meters southeast of Bomsdorf. 25X1A
Barth	28 September	All installations destroyed. No indications of reconditioning or reoccupation. No Soviet soldiers in Barth. 25X1A
Chemnitz	7 October	Airfield about 1,500 x 1,500 to 1,800 meters. No runway, taxiway, or construction work. Administrative building occupied by civilian authority. Courier planes occasionally landed at the field. 25X1A
	2, 5, 8, and 11 October	One courier biplane landed every morning. Mail was handed to an army officer who came from town in a motor vehicle. 25X1A
Dolitzsch	30 September	Debris piled up in southeastern section of field. Small-scale construction in ration supply depot and indications of reconditioning. It was rumored that the tenant of orchard in west section of field was given notice to leave. 25X1A
Pinow-North	15 October	One PC-2; no flying. 25X1A
